

The career that I would be interested in is being a part of Law enforcement. Just being part of the law enforcement, investigating crime, and ensuring the safety of other people has always been something that really interests me. Also having a parent that was in the police influenced me to also join and keep it in the family. I also don't want to spend all my time staring at a computer or doing a lot of paperwork. I'm more of a hands-on person. Overall out of all the jobs I can apply with my major I rather go with Law enforcement, and continue my education with criminal justice.
